<b>Description</b>			
With the GRSF records are going to be updated, there are some records with long spatial fields (see the attachment, e.g. <a href="https://blue-cloud.d4science.org/group/grsf_pre/data-catalogue?path=/dataset/b9a5ac80-a001-3c20-99ec-6ce387365823">https://blue-cloud.d4science.org/group/grsf_pre/data-catalogue?path=/dataset/b9a5ac80-a001-3c20-99ec-6ce387365823</a> )			
In order to improve the usability of the Catalogue UI, a "Show More"/"Show Less" facility has to be implemented for the "spatial" field.

Thanks for this Francesco, indeed in some cases that long list of coordinates is very disturbing. Yannis was also suggesting to provide that polygon information also under the section "Data and Resources". It might be a useful complementary information to access under that section.  
For your consideration and if not too complex.

I've just released an enhancement that provides the "Show More"/"Show Less" facility on (long) "spatial" field.

It is available in the GRSF\_PRE, for example see at [https://data.d4science.org/ctlg/GRSF\\_Pre/b9a5ac80-a001-3c20-99ec-6ce387365823](https://data.d4science.org/ctlg/GRSF_Pre/b9a5ac80-a001-3c20-99ec-6ce387365823) (see also the *Show\_More\_to\_Epand\_the\_Polygon\_Coordinates.png* attached).

Waiting for feedback. If OK, I will also release it in GRSF and GRSF\_ADMIN

Thanks a lot, it seems fine and great. Please go ahead.

Done.

The facility should be also applied in the GRSF and GRSF\_ADMIN VREs.  
I'm going to close this ticket.  
It will be reopened in case of issues (on this facility) after records republishing in the next few days.
