All the records have been published in GRSF Public VRE.

I still encounter issues with the catalog statistics. More specifically,

- GRSF public VRE reports 1980, although they should be 1979
- There's a mismatch in the figures reported under Organizations -> GRSF (1980) and Groups -> GRSF (1978)
- If I query the catalog using <https://api.d4science.org/catalogue/items> I find 1978 records.
<https://data.d4science.org/ctlg/GRSF/b6cf4e2b-414d-3825-8a7e-11774c10759b> is not retrieved.

Organisations
GRSF (1980)
Types
Assessment Unit (1831)
Fishing Unit (91)
Marine Resource (58)
Groups
GRSF (1978)
Stock (1887)
RAM (1160)
Catch (963)
Fishing Pressure (863)
Abundance Level (828)
FIRMS (748)

@marketak@ics.forth.gr as I said at the meeting the group association is done in a separate thread and sometimes Ckan fails. I'll add a retry in the future version.

I'm going to find the second problematic record. In the meanwhile can you try to publish the record you found again (Such a record does have no group at all).

Thanks @luca.frosini@isti.cnr.it .

My understanding was that the issue should be resolved (with the intermediate pausing periods).

As regards your proposal about the missing I've just removed that and published again and it now appears among the results of <https://api.d4science.org/catalogue/items>

Thanks
