<b>Description</b>			
Message from @arturoalbero@gmail.com			
Dear Yannis,			
Following the meeting we had on Friday, please find attached the excel file with all approve/merge/archive actions identified for the Package 2 records.			
In the last two columns you can see the forth action and the forth dominant record, with the excel having the same format as previous ones shared. Please let me know if you have any questions with any of the actions or if you would like me to clarify anything.			
Thank you very much, regards, Arturo			

#### History

##### #1 - Jul 05, 2022 12:03 PM - Yannis Marketakis

- File *FAO\_UW\_LoA\_Package2\_Records\_check\_2022.07.01-FORTH\_updates.xlsx* added

We have carried out all the requests for approve, archive and merge.

As regards harvesting, there is no way to do it for particular records. We can apply this for an entire source. We can move on with the second proposed action for each one of those (e.g. approve) and reharvesting will occur when we refresh the corresponding source. Let us know.

As regards removals, I am afraid that even if we remove the proposed records, they will be added again when we refresh GRSF KB, since the underlying source APIs still retrieve those records.

In the provided XLS file you will see the results.

##### #2 - Jul 05, 2022 12:04 PM - Yannis Marketakis

- Status changed from New to In Progress

- % Done changed from 0 to 80
