

D4Science Infrastructure - Task #3159

Delete whn-manager version from whn-manager war name

Apr 07, 2016 03:37 PM - Roberto Cirillo

Status:	Closed	Start date:	Apr 07, 2016
Priority:	Normal	Due date:	
Assignee:	Kostas Kakalettris	% Done:	100%
Category:	System Application	Estimated time:	0.00 hour
Target version:	improve nagios checks		
Infrastructure:	Production		
Description In order to improve the nagios monitoring for smartgears containers it's need to remove the whn-manager version from whn-manager war name. For example: <code>mv whn-manager-1.0.0-3.1.0.war whn-manager.war</code> and, of course restart the container. The following NKUA nodes should be modified: <code>dewn03.madgik.di.uoa.gr</code> <code>dewn08.madgik.di.uoa.gr</code> <code>dewn09.madgik.di.uoa.gr</code> <code>dl17.di.uoa.gr</code> <code>dl23.di.uoa.gr</code>
