D4Science Infrastructure - Task #366

Temporary suspension of gCubeApps/iSearch VRE

Jul 09, 2015 05:06 PM - Massimiliano Assante

Status:	Closed		**Start date:**	Jul 16, 2015
Priority:	High		**Due date:**	Jul 16, 2015
Assignee:	Massimiliano Assante		**% Done:**	100%
Category:	Other		**Estimated time:**	2.00 hours
Target version:	UnSprintable			
Infrastructure:	Production			

Description

As the portlet related to the Discovery framework have not been portlet to HL 2.0 (In particular search and results portlets) the gCubeApps/iSearch VRE will be suspended starting from the gCube 3.8.0 rollout (due July 16th 2015) until the porting is complete.

History

#1 - Jul 09, 2015 05:08 PM - Massimiliano Assante

- Estimated time set to 2.00 h

#2 - Jul 09, 2015 05:22 PM - Massimiliano Assante

- Start date changed from Jul 09, 2015 to Jul 16, 2015

#3 - Jul 10, 2015 01:57 PM - Panagiota Koltsida

We are going to release these 2 portlets asap, so as to avoid the suspension of the iSearch VRE. Suspending a VRE after the end of the project is not a good idea for its reputation.
Changing the interface of core components 9 months after the end of the project makes it a bit difficult to update all the other projects that depend on them.

#4 - Jul 13, 2015 03:45 PM - Massimiliano Assante

- Status changed from New to Rejected

Search and results portlets have been upgraded to HL 2.0 and do build now, thanks for your cooperation. The temporary suspension of gCubeApps/iSearch VRE is no longer needed.

#5 - Jul 13, 2015 03:46 PM - Massimiliano Assante

- Status changed from Rejected to Closed
