Description			
I would like to add the SAI portlet to the ENVRIplus VRE (that is hosted by the D4Science portal).			
Is it possible to deploy the portlet on this portal also?

it is not a problem to deploy the SAI portlet in ENVRIplus VRE. What are the infra resources needed in ENVRIplus scope @roberto.cirillo@isti.cnr.it (aside the portlet)

I think we no need further resources on ENVRIplus VRE. Could you set the portlet hidden for testing in ENVRIplus VRE?
