This ticket is unclear. Please specify the work that has been done and the software to add to the upcoming release 4.2

#4 - Nov 03, 2016 05:44 PM - Daniele Pavia

This ticket is related to its parent ticket that was created to track the deployment of the preprod infrastructure based on GHN version 3.11.

While the preprod infrastructure (/d4s,/d4s/testing) was deployed and later updated to GHN version 4.0, including the smartgears based authorization service, the accounting service was skipped. It will be deployed when rolling out the update to GHN version 4.2 of the preprod infrastructure.
