D4Science Infrastructure - Task #4126

Install Search and ExecutionEngine services on dl19.di.uoa.gr

May 26, 2016 01:00 PM - Roberto Cirillo

Status:	Closed		**Start date:**	May 26, 2016
Priority:	Normal		**Due date:**	
Assignee:	Kostas Kakaletris		**% Done:**	100%
Category:	Other		**Estimated time:**	0.00 hour
Target version:	Populate gcube/preprod environment			
Infrastructure:	Pre-Production			

Description

In order to dismiss the Ecosystem VO and to upgrade the VMs deployed on it, it's need:

- upgrade the OS
- install the last smartgears stable distribution:

```
http://maven.research-infrastructures.eu/nexus/content/repositories/gcube-staging/org/gcube/distri
bution/smartgears-distribution/1.2.7-3.11.0-125799/smartgears-distribution-1.2.7-3.11.0-125799.tar
.gz
```

- install the following smartgers services:
    - Search service
    - ExecutionEngine service
