D4Science Infrastructure - Incident #4222

StatMan DataSpace not working in EnvriPlus VRE

Jun 10, 2016 10:25 AM - Gianpaolo Coro

Status:	Closed		**Start date:**	Jun 10, 2016
Priority:	Urgent		**Due date:**	
Assignee:	Fabio Sinibaldi		**% Done:**	100%
Category:	High-Throughput-Computing		**Estimated time:**	0.00 hour
Target version:	Data Processing			
Infrastructure:	Production			

Description

The processing tools do not visualise the Data Space in the EnvriPlus VRE. Perhaps it is related to a misconfigured resource for the service?

History

#1 - Jun 10, 2016 10:43 AM - Gianpaolo Coro

The problem is due to the fact that StatMan was added to the VRE but its resources (database etc.) were not.
I know that Roberto had automatised this phase and had asked for feedback to other people to check with the VRE creator.
