

D4Science Infrastructure - Task #457

A new backup server

Aug 04, 2015 05:02 PM - Andrea Dell'Amico

Status:	Closed	Start date:	Aug 04, 2015
Priority:	Urgent	Due date:	
Assignee:	_InfraScience Systems Engineer	% Done:	100%
Category:	System Application	Estimated time:	0.00 hour
Target version:	A new backup infrastructure		
Infrastructure:	Production		
Description			
We need a new backup server that will run in parallel to the old one to share the load			
Subtasks:			
Task # 458: Reinstall dlibsan1 as the new backup server			Closed
Task # 459: Install and configure backuppc			Closed
Task # 460: Upgrade the old backup server			Closed
Task # 461: Nagios and ganglia monitoring for the backup servers			Closed
Task # 462: X.509 certificates for the two backup servers			Closed
Task # 483: Add iptables rules to the backup server			Rejected

History

#1 - Aug 13, 2015 03:31 PM - Tommaso Piccioli

To date these host's backups have been moved to the new backuppc server:

#2 - Aug 13, 2015 03:32 PM - Tommaso Piccioli

- Status changed from New to In Progress

#3 - Aug 13, 2015 04:02 PM - Tommaso Piccioli

redmine.d4science.org moved to the new backup server

#4 - Aug 31, 2015 05:07 PM - Tommaso Piccioli

Already added/moved to this backup server:

data.d4science.org

portal.eubrazilopenbio.d4science.org
newportal.i-marine.d4science.org
portal.d4science.org
portal.i-marine.d4science.org

geoserver1.d4science.org
geoserver2.d4science.org
geoserver3.d4science.org
geoserver4.d4science.org

rstudio.d.d4science.research-infrastructures.eu
rstudio.d4science.org
rstudio.research-infrastructures.eu

smartfish.d4science.org
statistical-manager2.d4science.org
wps.statistical.d4science.org

#5 - Aug 31, 2015 05:08 PM - Tommaso Piccioli

nb-bosio and nb-nardi needs some specific configuration on the client (probably firewall exceptions)
The backup of these two on the old backup server is still active.
