

D4Science Infrastructure - Task #4720

Deploy FhnManager service in /gcube/preprod

Jul 14, 2016 10:26 AM - Roberto Cirillo

Status:	Closed	Start date:	Jul 14, 2016
Priority:	High	Due date:	
Assignee:	Roberto Cirillo	% Done:	100%
Category:	Other	Estimated time:	0.00 hour
Target version:	Populate gcube/preprod environment		
Infrastructure:	Pre-Production		
Description			
The new service will be hosted on node75.d4science.org			
Related issues:

I've deployed fhn-manager-service on node75.d4science.org but I see on starting a certificate exception (I haven't installed certificates on that VM). Please, @nunzioandrea.galante@eng.it could you install on node75.d4science.org the required certificate?

@roberto.cirillo@isti.cnr.it Currently we do not need to install any certificate on the VM since it is extracted directly from the IS.

I have configured the VOMS and other minor stuff in order to allow the service to run properly.

@fabio.sinibaldi@isti.cnr.it according to your availability, we could start to carry out some test concerning the integration between the portlet and service; in such sense a new version of the client-library has been released.
