- % Done changed from 0 to 100

The metadata 'owner' of Storage has been updated according to Jackrabbit information. For 10.199 files the owner has been updated: for 1.136 of these the owner was "home-library". The other files had a wrong owner because when a folder was unshared, the owner was updated to the admin user only in Jackrabbit, not in Storage. In HL 2.4, this bug has been fixed.
