Description			
I tried to download a file from a D4S VRE Parthenos folder and I got the following message:			
The requested resource was not found.			
https://services.d4science.org/group/data-e-infrastructure-gateway/613eeb14-b038-4505-bb0c-bd09db60b5bb			
The file I was trying to download was visible and uploaded by me on July 1st. So I know it should be there.
