History

#1 - Sep 15, 2016 12:56 PM - Massimiliano Assante

- Status changed from In Progress to Feedback

- % Done changed from 0 to 100

The portlet was deployed on Sobigdata resource catalogue VRE, https://i-marine.d4science.org/group/resourcecatalogue/add-existing-users-to-vre

I am now removing the Site role "Site User Manager - Site User Managers can manage user memberships" as is no longer required.

please note that whenever a user is added a Message is sent and this is the resulting notification (example when adding a user to the VRE gCube):

The list of users to be added proposed by this portlet comes from the one registered to the current gateway.

Dear Andrea,
Massimiliano Assante sent you a message:

Dear Andrea,

I just registered you to the VRE gCube on the D4Science.org Gateway.

Please, click here to access the VRE: http://services.d4science.org/group/gcube
