

D4Science Infrastructure - Incident #5490

error when running CATCH_BY_GEARs experiment

Oct 11, 2016 02:46 PM - Paul Taconet

Status:	Closed	Start date:	Oct 11, 2016
Priority:	High	Due date:	
Assignee:	Paul Taconet	% Done:	100%
Category:	System Application	Estimated time:	0.00 hour
Target version:	Data Processing		
Infrastructure:	Development, Production		
Description When I run my algorithm CATCH_BY_GEARs on the RprototypingLab (org.gcube.dataanalysis.wps.statisticalmanager.synchserver.mappedclasses.transducerers.CATCHES_BY_GEARs), I get the following error message: Failed start computation Catches By Gears! Invalid response from service, response isn't instance of ExecuteResponseDocumentImpl, class is class net.opengis.ows.x11.impl.ExceptionReportDocumentImpl I would like to have the algo functional for a presentation this Friday and another one next week. Thanks a lot, Paul			

History

#1 - Oct 11, 2016 02:53 PM - Paul Taconet

- Tracker changed from Support to Incident
- Infrastructure Development added

#2 - Oct 11, 2016 03:24 PM - Giancarlo Panichi

I have reinstalled the software and I have tested it with default parameters it seems to work fine. Please can you repeat your experiments to check if it works properly?

#3 - Oct 11, 2016 03:31 PM - Paul Taconet

Thanks, I have just repeated the experiments and it works properly now.

#4 - Oct 11, 2016 04:07 PM - Giancarlo Panichi

- Status changed from New to Closed
- % Done changed from 0 to 100
