Description

In view of the BlueBRIDGE kickoff, I and Roberto agreed that would probably be useful to show some statistics about VOs and VREs size: number of users, number of resources, number of accesses, etc...

Would it be possible to have such statistics by next Monday to include it in our presentations?

History

- Status changed from New to In Progress

#2 - Sep 10, 2015 12:46 PM - Massimiliano Assante

- Status changed from In Progress to Feedback

I can give you the number of users per VO and VRE. What do you mean by number of resources and number of accesses? In the latter case a time period should be considered, unless you want the number of access since the beginning of time (Which we can't give you)

#3 - Sep 10, 2015 03:01 PM - Massimiliano Assante

FARM VRE users: 114
gCubeApps VRE users: 1.134
ISTI VRE users: 827

Total: 2.075
