D4Science Infrastructure - Task #5819

Modify use-case functions as e-infrastructure services

Nov 21, 2016 01:41 PM - Scott Large

Status:	Rejected		**Start date:**	Nov 21, 2016
Priority:	Normal		**Due date:**	
Assignee:	Scott Large		**% Done:**	100%
Category:			**Estimated time:**	0.00 hour
Target version:	UnSprintable			
Infrastructure:	Development			

Description

2) Modify the base functions to parallelize computations and/or utilize other e-infrastructure services.

#5517

Subtasks:

Task # 5820: Develop wrappers for the modified functions	**Closed**
Task # 5821: Prototype fmle_BB()	**Closed**

History

#1 - Nov 21, 2016 02:37 PM - Nikolas Laskaris

Is this a new task?
If so, and we should include it on release 4.2 (have some components added in release 4.2), it should be hooked on release 4.2 instead of 4.1.
(please let me know, in order to open a ticket for you, because for the moment there's nothing else for 4.2 on this subsystem).

- Status changed from New to Closed

#3 - Nov 21, 2016 03:54 PM - Pasquale Pagano

Why this ticket has been closed without any explanation?

#4 - Nov 22, 2016 10:51 AM - Maria Di Girolamo

- Status changed from Closed to In Progress

Dear pasquale.pagano@isti.cnr.it,
this ticket have a wrong parent task or tracker, my fault to close the ticket.
As reported in the previous comment by laskarisn@di.uoa.gr , please, scott.large@ices.dk could you update the parent task (5058 for the release 4.2.0).
You should create the ticket about the new configuration (org.gcube.index-management.smartfish-ds.1-2-0-1) added as parent task its subsystem (if the ticket for the subsystems doesn't exist , you should create it) then you can add the three ticket. You can find the details about this procedure in the wiki page: https://wiki.gcube-system.org/gcube/Major/Minor_Release_Cycle_procedure (release preparation session, steps from 1 to 3).

I update the status in ~~New~~ FeedBack.
