

D4Science Infrastructure - Task #5820

Task # 5819 (Rejected): Modify use-case functions as e-infrastructure services

Develop wrappers for the modified functions

Nov 21, 2016 01:45 PM - Scott Large

Status:	Closed	Start date:	Nov 21, 2016
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	UnSprintable		
Infrastructure:	Development		
Description Develop wrappers for the modified functions to take input data from a local environment to be computed within the e-infrastructure and sent back to the local environment as output. #5517 https://i-marine.d4science.org/group/rprototypinglab/data-miner?OperatorId=org.gcube.dataanalysis.wps.statisticalmanager.synchserver.mappedclasses.transducerers.GENETICALGORITHM #1768 https://github.com/slargo/fmle_bb

Dear pasquale.pagano@isti.cnr.it,

this ticket have a wrong parent task or tracker . It's my error to close the ticket.

As reported in the previous comment by laskarisn@di.uoa.gr , please, scott.large@ices.dk could you update the parent task (5058 for the release 4.2.0).

You should create the ticket about the new configuration (org.gcube.index-management.smartfish-ds.1-2-0-1) added as parent task its subsystem (if the ticket for the subsystems doesn't exist , you should create it) then you can add the three ticket. You can find the details about this procedure in the wiki page: https://wiki.gcube-system.org/gcube/Major/Minor_Release_Cycle_procedure (release preparation session, steps from 1 to 3).

#5 - Feb 20, 2017 12:13 PM - Pasquale Pagano

- Status changed from Feedback to Closed

I am going to close the ticket since we got any clarification from @scott.large@ices.dk and the ticket description does not allow to understand who should perform the described activity.
