- Status changed from Closed to In Progress

- Target version set to UnSprintable

Dear pasquale.pagano@isti.cnr.it,
this ticket have a wrong parent task or tracker, my fault to close the ticket.
As reported in the previous comment by laskarisn@di.uoa.gr , please, scott.large@ices.dk could you update the parent task (5058 for the release 4.2.0).
You should create the ticket about the new configuration (org.gcube.index-management.smartfish-ds.1-2-0-1) added as parent task its subsystem (if the ticket for the subsystems doesn't exist , you should create it) then you can add the three ticket. You can find the details about this procedure in the wiki page: https://wiki.gcube-system.org/gcube/Major/Minor_Release_Cycle_procedure (release preparation session, steps from 1 to 3).
