- Status changed from New to In Progress

#2 - Dec 02, 2016 05:00 PM - Luca Frosini

For such a task I have modified the following ansible scripts.

```
d4science-ghn-cluster/group_vars/is_sweeper_se_plugin/all.yml
d4science-ghn-cluster/group_vars/smart_account_aggr_dev_devnext/smartexecutor_dev_devnext.yml
d4science-ghn-cluster/group_vars/smartexecutor_dev/all.yml
d4science-ghn-cluster/inventory/hosts.dev
```

@costantino.perciante@isti.cnr.it @alessandro.pieve@isti.cnr.it you have to restart your plugin when the upgrade is finished

#3 - Dec 02, 2016 05:05 PM - Luca Frosini

@andrea.dellamico@isti.cnr.it I need your support

#4 - Dec 02, 2016 05:39 PM - Luca Frosini

- Assignee changed from Luca Frosini to Andrea Dell'Amico

#5 - Dec 02, 2016 05:40 PM - Luca Frosini

@andrea.dellamico@isti.cnr.it take a look to my last commit on ansible project and to the commit comment

#6 - Dec 05, 2016 11:47 AM - Andrea Dell'Amico

- Assignee changed from Andrea Dell'Amico to Luca Frosini

The refactoring task is all yours :)

#7 - Dec 05, 2016 01:08 PM - Luca Frosini

- % Done changed from 0 to 40

#8 - Dec 05, 2016 01:09 PM - Luca Frosini

I made the refactoring on ansible repository. I'm going to test it.

#9 - Dec 05, 2016 05:44 PM - Luca Frosini

- % Done changed from 40 to 90

#10 - Dec 05, 2016 06:11 PM - Luca Frosini

- % Done changed from 90 to 100

#11 - Dec 05, 2016 07:04 PM - Luca Frosini

is-sweeper plugin is available on:

- **node6.d4science.org** in the following scopes

- /gcube
- /gcube/devsec
- /gcube/devsec/devVRE

- **node17.d4science.org** in the following scopes

- /gcube/devNext
- /gcube/devNext/NextNext

@alessandro.pieve@isti.cnr.it accounting-aggregator plugin is available on:

- **smartexecutor1-d-d4s.d4science.org** in the following scopes:

- /gcube/devNext
- /gcube/devNext/NextNext

@costantino.perciante@isti.cnr.it social-data-indexer plugin is available on:

- **node22.d4science.org** in the following scopes:

- /gcube

node17.d4science.org and **smartexecutor1-d-d4s.d4science.org** have the new container which publish on new resource-registry too. This is not possible for **node6.d4science.org** and **node22.d4science.org** because the new resource-registry is available only for:

- /gcube/devNext
- /gcube/devNext/NextNext

@alessandro.pieve@isti.cnr.it @costantino.perciante@isti.cnr.it you are have ssh authorization on respective hosts. Let me know if everything is fine. Please, contact me before launching your plugins again.

#12 - Dec 06, 2016 04:43 PM - Luca Frosini

@andrea.dellamico@isti.cnr.it can you help me to understand why /gcube scope is not available on node6.d4science.org instance?

#13 - Dec 07, 2016 12:47 PM - Andrea Dell'Amico

Luca Frosini wrote:

@andrea.dellamico@isti.cnr.it can you help me to understand why /gcube scope is not available on node6.d4science.org instance?

in d4science-ghn-cluster/group_vars:

```
is_sweeper_se_plugin_dev/      is_sweeper_se_plugin_dev devsec
```

There's a space instead of an _

#14 - Dec 07, 2016 12:57 PM - Luca Frosini

Corrected and ansible run launched. I'm going to close this ticket if everything works fine.
