Target version:	UnSprintable		
Infrastructure:	Production		
Description			
Due to a change in a service's method, I had to rebuild the grsf-publisher-ws component and the production node on which it runs (smart-grsf-d4s.d4science.org) must be updated with the new .war			
The build component is available here http://maven.research-infrastructures.eu/nexus/content/repositories/gcube-staging/org/gcube/data-catalogue/grsf-publisher-ws/1.0.0-4.2.0-140061/
