

D4Science Infrastructure - Incident #6258

Workspace download file popup error on short url link redirect

Dec 19, 2016 05:35 PM - Massimiliano Assante

Status:	Closed	Start date:	Dec 19, 2016
Priority:	Urgent	Due date:	Dec 20, 2016
Assignee:	Francesco Mangiacrapa	% Done:	100%
Category:	Other	Estimated time:	1.00 hour
Target version:	UnSprintable		
Infrastructure:	Development, Production		
Description			
If I paste this link (for example: https://goo.gl/cgsb3t) to the browser and i'm not logged in, I am redirected to the workspace file and the file is selected, when i click download the popup error appears but the file is downloaded correctly.			
I could not find any error in the logs, the issue is present in both production and dev			

History

#1 - Dec 19, 2016 05:36 PM - Massimiliano Assante

- File Screenshot from 2016-12-19 17-26-25.png added

#2 - Dec 19, 2016 05:37 PM - Massimiliano Assante

- Description updated

#3 - Dec 21, 2016 07:09 PM - Francesco Mangiacrapa

- Status changed from New to In Progress

When the redirect to the workspace file is performed the inject code (used by Liferay Theme) performed by gcube-context.js fails to the RPC GWTWorkspaceServiceImpl#getAllContacts (performed by Workspace) during Workspace portlet init, so client side is shown the error.

Moreover, This error is not systematic but It seems that the contextId and userId used for the session are not read/passed correctly

@valentina.marioli@isti.cnr.it and @massimiliano.assante@isti.cnr.it You can see the following logs there are warning and errors regarding HL and PortalContext
