<b>Description</b>			
Inserting a table with the syntax documented here <a href="http://www.redmine.org/projects/redmine/wiki/RedmineTextFormatting#Tables">http://www.redmine.org/projects/redmine/wiki/RedmineTextFormatting#Tables</a> the table is not rendered and the ext is showed as is.			

#### History

##### #1 - Sep 17, 2015 05:57 PM - Luca Frosini

Here his an example

<https://support.d4science.org/projects/bluebridge/wiki/Events>

##### #2 - Sep 17, 2015 05:58 PM - Luca Frosini

- Target version changed from Documentation to UnSprintable

##### #3 - Sep 17, 2015 06:00 PM - Andrea Dell'Amico

The 'Markdown' syntax mode is active, while the documentation you pointed at refers to the 'textile' mode. It's a global setting, btw.

##### #4 - Sep 18, 2015 02:45 PM - Luca Frosini

- Status changed from New to In Progress

- % Done changed from 0 to 100

Thanks [Andrea Dell'Amico](#) and sorry for the mistake.

@sara.garavelli you can find a a tutorial here

<http://agea.github.io/tutorial.md/>

in brief you can made a table using html notations.

##### #7 - Nov 04, 2015 01:45 PM - Luca Frosini

- Status changed from Closed to In Progress

I'm reopening the ticket (maybe I could create a new one), because the formatting seems not working.

The link I provided (<http://agea.github.io/tutorial.md/>) and some other found with google says that I can use table html tag, but it does not work?

Am I doing any mystake?

##### #8 - Nov 04, 2015 01:55 PM - Andrea Dell'Amico

I do not know :-).

There could be a bug in the redmine markdown support, or some other mistake.

The official markdown reference is <http://daringfireball.net/projects/markdown/syntax> (markdown is John Gruber's idea).

The most recurrent mistake I'm seeing in our tickets is that the markdown separators need a blank line before the start and after the end. You can easily check with the *pre* tags.

A tables generator (not only for markdown) exists too, that you can use to check your code: [http://www.tablesgenerator.com/markdown\\_tables](http://www.tablesgenerator.com/markdown_tables)

**#9 - Nov 04, 2015 02:31 PM - Georgios Kakalettris**

Found the issue on tables: header separator needs explicitly 3 dashes (-) between the pipes (|)
