Description

@miguel.de-alba-aparicio@bfr.bund.de is reporting the following issue

I cannot access the wiki. I am getting a 403 error: "You are not authorized to access this page."

He is referring to the aginfra VRE <https://aginfra.d4science.org/group/aginfraplus>

History

#1 - Feb 20, 2017 10:54 AM - Andrea Dell'Amico

- Assignee changed from *_InfraScience Systems Engineer* to *Massimiliano Assante*

- Status changed from *New* to *Closed*

- % Done changed from *0* to *100*

None of the users of the AginfraPlus VRE could access the issue tracker or the wiki as the Redmine group AginfraPlus (imported from ldap and containing the VRE users) was never associated to the Redmine Project AginfraPlus.

My fault, sorry about that. It is fixed now.
