- Status changed from New to In Progress
- % Done changed from 0 to 20

Do we have a list of scopes yet?

#3 - Mar 09, 2017 10:14 AM - Andrea Dell'Amico

smartgears has been installed and the proper nginx redirections are in place on both http and https (no http -> https redirection):

```
location /whn-manager {
    proxy_pass http://localhost:9000/whn-manager;
}
location /sharelatex-connector {
    proxy_pass http://localhost:9000/sharelatex-connector;
}
```

The sharelatex app is always been redirected over https.

The only scope available right now is /d4science.research-infrastructures.eu
