

D4Science Infrastructure - Incident #7575

smartgears 2.1.0-4.3.0-142337 needs a lot of time to deploy and start

Mar 17, 2017 07:45 PM - Andrea Dell'Amico

Status:	Closed	Start date:	Mar 17, 2017
Priority:	Urgent	Due date:	
Assignee:	Lucio Lelii	% Done:	100%
Category:	Application	Estimated time:	0.00 hour
Target version:	UnSprintable		
Infrastructure:	Production		
Description			
Starting from the latest smartgears release, the tomcat startup times have increased by order of magnitudes.			
To start a dataminer more than 20 minutes are needed, and a R connector installed in the GARR cluster needed 45 minutes.

smartgears is not the culprit, it seems.
When the hosts have lots of scopes the registry cannot satisfy the requests fast enough.
