I just deployed a new version of uri-resolver on data-d including the HTTP HEAD request following to check that Uri-Resolver is up and running:

The HEAD REQUEST:
http://data-d.d4science.org/smp?hproxycheck=true

The response is status 200

The request does not involve the storage and It can be used by hproxy

@andrea.dellamico@isti.cnr.it and @roberto.cirillo@isti.cnr.it let me know if it's ok for you
