

D4Science Infrastructure - Task #7814

Provide a script for restoring missed scope from mandatory resources

Mar 27, 2017 11:35 AM - Roberto Cirillo

Status:	Closed	Start date:	Mar 27, 2017
Priority:	Urgent	Due date:	
Assignee:	Lucio Lelii	% Done:	100%
Category:	System Application	Estimated time:	0.00 hour
Target version:	UnSprintable		
Infrastructure:	Production		
Description			
In order to check if a mandatory resource is correctly assigned on every scopes, it's needed to provide a script that retrieve all the active scopes on the infrastructure and assign them to the resource.			

History

#2 - Mar 27, 2017 11:41 AM - Massimiliano Assante

@roberto.cirillo@isti.cnr.it is this related to #7800?

#3 - Mar 27, 2017 11:52 AM - Roberto Cirillo

Yes, it is. I think both the scripts can work together for avoiding the same issue:
The #7800 is needed for alerting us if there is a mandatory resource with a missing scope, the [#7814](#) script should restore the missing scope from the mandatory resource.

#5 - Mar 30, 2017 08:24 PM - Pasquale Pagano

Any progress to report?

#6 - Mar 31, 2017 11:12 AM - Lucio Lelii

- % Done changed from 0 to 100

yes the script is ready, we already ran it for the accounting resource in preproduction.

#7 - Apr 20, 2017 01:55 PM - Andrea Dell'Amico

- Status changed from New to Closed
