Description

The VRE is conceived to support the "DEMETER = DEtermination and METrics of Emerging Risks" EFSA project

The project will run for 3 years (from April 11th on).

The request is to have a shared VRE to support the project management (small files storage, file exchange, wiki, news feed, etc).

In future they might consider to use DataMiner too, in fact one of the project goals is to set up a so-called "Emerging Risk Knowledge Exchange
Platform", which in it's simplest form is just a directory of KNIME workflows that are made available for download (or
online execution, if possible).

History

#1 - Mar 31, 2017 12:25 PM - Leonardo Candela

- Status changed from New to Planned

#2 - Mar 31, 2017 07:08 PM - Leonardo Candela

- Status changed from Planned to Available

- % Done changed from 0 to 90

The VRE is available at https://services.d4science.org/group/demeter

#3 - Mar 31, 2017 07:10 PM - Leonardo Candela

- % Done changed from 90 to 100

#4 - Mar 31, 2017 07:10 PM - Leonardo Candela

- Status changed from Available to Released

#5 - Apr 06, 2020 05:02 PM - Leonardo Candela

- VO set to D4Research
