<b>Description</b> Mandatory fields are expected to be annotated with the * symbol, in the case of tags it is missing.  Moreover, I'm wondering the name should be Tag rather than Tags ... it is possible only to enter tags one by one.  I assume this is for any instance, yet I notice it in EcoEvo VRE.

@massimiliano.assante@isti.cnr.it could you please check that the latest available built for this portlet of gCube 4.3 release has been deployed in production? That's the solution

Please be sure it has been put on every node. Thanks

Note: on pre-production nodes, this correct version is deployed *gcube-ckan-datacatalog-1.3.0-4.3.0-144405*
