D4Science Infrastructure - Incident #8062

Social Networking and Broken links

Apr 11, 2017 11:46 AM - Leonardo Candela

Status:	Closed		**Start date:**	Apr 11, 2017
Priority:	Normal		**Due date:**	
Assignee:	Costantino Perciante		**% Done:**	100%
Category:			**Estimated time:**	0.00 hour
Target version:	UnSprintable			
Infrastructure:	Production			

Description

It seems that if in a post it is included an URL like:

https://citegr-my.sharepoint.com/personal/gkakas_citegr_onmicrosoft_com/_layouts/15/guestaccess.aspx?docid=02f100bc04b4a4c8f90381ef4c2eca3b6&authkey=AW6LscZjQ5F9NJWZka6Pm7A

It is badly displayed in the post message (it is cut at the & character in the GET paremeters) while the "preview" is correct. See the attached screenshot (in the bottom part of the screenshot there is the URL associated with the preview).

My feeling is that the url is cut at the & character (i.e. when more than a parameter is passed). I do assume we do not have any limitation on links size.

History

#2 - Apr 11, 2017 12:00 PM - Massimiliano Assante

- Status changed from New to Closed

- Assignee changed from Massimiliano Assante to Costantino Perciante

- Priority changed from High to Normal

- % Done changed from 0 to 100
