History

#1 - May 04, 2017 02:14 PM - Tommaso Piccioli

message-broker.d.d4science.research-infrastructures.eu
(alias ui.grid.research-infrastructures.eu)

#2 - May 05, 2017 01:25 PM - Andrea Dell'Amico

I'm shutting down these ones:

statistical-manager1.d4science.org
statistical-manager.d.d4science.org
statistical-manager-pre.d4science.org
node19.d.d4science.research-infrastructures.eu

#3 - May 05, 2017 01:27 PM - Andrea Dell'Amico

- Status changed from New to In Progress

- % Done changed from 0 to 90

Done.

#4 - May 08, 2017 11:07 AM - Tommaso Piccioli

At the moment these machines are connected to the message-broker.d4science.research-infrastructures.eu (prod), service info are from wiki and I'm not sure they are updated:

node41.d4science.org (VO gCubeApps DTS, ExecutionEngine, Workspace Index Updater Service)
node29.p.d4science.research-infrastructures.eu (VO gCubeApps Data Transfer Scheduler)
node36.p.d4science.research-infrastructures.eu (VO FARM/gCubeApps War Management)
node43.p.d4science.research-infrastructures.eu (VO gCubeApps Data Transfer Agent)

These are connected to the message-broker.d.d4science.research-infrastructures.eu (dev, alias ui.grid.research-infrastructures.eu):

node5-d-d4s.d4science.org (alias node4.d.d4science.research-infrastructures.eu) (ROOT /gcube SoftwareGateway)
node15.d.d4science.research-infrastructures.eu (ROOT /gcube , /gcube/devsec IS-Notifier)
node55.p.d4science.research-infrastructures.eu (not on the wiki, due to the name should be a production host)

#5 - May 08, 2017 12:04 PM - Andrea Dell'Amico

I missed statistical-manager1.d.d4science.org. Shutting it down now.

As replied via email, the message-broker cannot be dismiss until the old data-transfer service will be active.

I'm closing this one. Let's open a different ticket when we will be able to kill activemq.
