- Status changed from New to In Progress

I just created the testdb and dataSpace databases on postgresql-srv-dev.d4science.org.

username and password did not change. I imported the old dataSpace data, while testdb is clean. A dump of all the databases present on statistical-manager.d.d4science.org is on the new server, under /data/db/old_backups/

Please change the configuration of your applications, statistical-manager.d.d4science.org will be shut down again tomorrow.
