

D4Science Infrastructure - Task #8673

Reconfigure the authorization clients in dev to use <https://auth-d.dev.d4science.org/> as the URL for the authentication service

May 17, 2017 07:05 PM - Andrea Dell'Amico

Status:	Closed	Start date:	May 17, 2017
Priority:	High	Due date:	
Assignee:	Lucio Lelii	% Done:	100%
Category:	System Application	Estimated time:	0.00 hour
Target version:	Dismiss node7.d.d4science.research-infrastructures.eu		
Infrastructure:	Development		
Description So that the traffic goes over https and we can get rid of the old hostname node7.d.d4science.research-infrastructures.eu

The configuration is set to the new endpoint, we have to change the authorization-endpoint.xml in the services of the development infrastructure to get rid of the node7.d alias for auth-dev.d4science.org.

Is it still to be done?

#5 - Oct 02, 2017 06:21 PM - Lucio Lelii

depends on how many node have been upgraded in the dev infrastructure.

If all the dev nodes contain the common-authorization library with version 2.1.1-SNAPSHOT the alias is not needed anymore.

Any news on this one?

#8 - Oct 15, 2018 02:57 PM - Lucio Lelii

I think it can be closed.

#9 - Oct 15, 2018 03:05 PM - Andrea Dell'Amico

- *Status changed from New to Closed*

I just removed node7.d.d4science.research-infrastructures.eu record from the DNS.
