Target version:	UnSprintable		
Infrastructure:	Production		

Description

We would like two new plugins to be installed on issue.openaire.research-infrastructures.eu:

- http://www.redmine.org/plugins/redmine_update_reminder: to send automatic reminders whenever a ticket has not been updated within a configurable duration
- the plugin that shows a preview of a ticket when the mouse hovers on a reference to it. This plugin is already installed in this redmine instance, but I do not know its name

History

#1 - Oct 06, 2015 10:50 AM - Andrea Dell'Amico

- Status changed from New to In Progress

It's the *Quick view* plugin. I'm going to install both of them.

- Status changed from In Progress to Feedback

- % Done changed from 0 to 90

Installed both. The instance has been already restarted, the update reminder configuration is here: https://issue.openaire.research-infrastructures.eu/settings/plugin/redmine_update_reminder
