I added a sleep between the stop and start commands that are run after a certificate has been renewed.
My guess is that the stop command exits while the service is still running, so the start command has no effect.

Do you know the next time the certificate will be renewed?

#4 - Jun 22, 2017 04:59 PM - Andrea Dell'Amico

After 60 days from yesterday night.

#5 - Jun 22, 2017 05:18 PM - Andrea Dell'Amico

OK, I've just found that the original startup scripts run both the start and the stop commands as background jobs.
I modified it to only put the start command in background.
