1. Change the start of the Welcome message text to: ' It provides a list of best online places (sources) that can be used to conduct a search for ecological and evolutionary datasets.'

Yes. It is easy and fast.

1. Replace word 'Items' in the box and in the bar with the word ' Data sources'

Replacing the words "Item/s" with "Data source/s" they will be replaced everywhere. Is it ok for you?

1. Rename the 'Item Search' into 'Search for a data source' and also put this box as the second one on the screen.

Since point 2: 'Item Search' will be replaced with 'Data source Search'. Unfortunately the box can not be moved from current position.

1. Can there be a 'contact developers' or something like that button, so people can easily give their comments/suggestions.

About this point.. Could you use the post provided by News Feed facility <https://services.d4science.org/group/ecoevo/ecoevo> for this purpose, no?
