

D4Science Infrastructure - Task #9122

Upgrade MongoDB to 3.4 version

Jun 30, 2017 06:09 PM - Roberto Cirillo

Status:	New	Start date:	Jun 30, 2017
Priority:	Urgent	Due date:	Jul 13, 2018
Assignee:	Tommaso Piccioli	% Done:	0%
Category:	Data Management	Estimated time:	0.00 hour
Target version:	Upgrade MongoDB to 3.2 version		
Infrastructure:	Development, Production		
Description We should upgrade our mongoDB clusters to version 3.2. Now we have installed the version 3.0, so this upgrade can be done without any downtime and using a "rolling" upgrade. First, we should upgrade the dev cluster, after that, we could upgrade the production cluster. The upgrade will be done in the following way: <ul style="list-style-type: none">• Upgrade secondary members of the replica set.• Step down the replica set primary.• Upgrade the primary.			
Subtasks:			
Task # 9123: MongoDB: upgrade dev cluster to version 3.2			Closed
Task # 11964: MongoDB: upgrade dev cluster to version 3.4			Closed
Task # 12117: MongoDB: upgrade production cluster to version 3.2			Closed
Task # 12118: MongoDB: upgrade production cluster to version 3.4			Closed
