

D4Science Infrastructure - Task #932

Setup a logrotate entry to manage the main redmine log file

Oct 08, 2015 05:42 PM - Andrea Dell'Amico

| | | | |
|--|--------------------------------|-----------------|--------------|
| Status: | Closed | Start date: | Oct 08, 2015 |
| Priority: | Normal | Due date: | |
| Assignee: | _InfraScience Systems Engineer | % Done: | 100% |
| Category: | System Application | Estimated time: | 0.00 hour |
| Target version: | Redmine management | | |
| Infrastructure: | Development, Production | | |
| Description | | | |
| The file lives under | | | |
| / <code><path_to_redmine>/log</code> | | | |
| with name production.log. The <i>copytruncate</i> workaround will be needed. | | | |

History

#1 - Oct 08, 2015 07:20 PM - Andrea Dell'Amico

- Status changed from New to In Progress
- Infrastructure Development added

The logrotate script is now installed in the devel machine. If it works well will be installed on the production ones as well.

#2 - Oct 12, 2015 12:12 PM - Andrea Dell'Amico

- Status changed from In Progress to Closed
- % Done changed from 0 to 100

It's working.
I've also installed it on the production server.
