@denispvr@i2s.gr can you please help us on that, by stating which are the exact infrastructure requirements of simul fish growth library?

I've added all the required resources. Maybe it's needed to add the related portlet. @massimiliano.assante@isti.cnr.it please, could you check and add the portlet if it is not present yet?

##### #5 - Jul 20, 2017 04:56 PM - Dimitris Katris

@massimiliano.assante@isti.cnr.it @roberto.cirillo@isti.cnr.it there is no need to add the portlets. We just need some models/data that SimulFishGrowth can provide to the geoanalytcs.

@denispvr@i2s.gr can you please confirm?

- Status changed from Feedback to Closed

We just had a short teleconference to clarify this and there is not need to add any portlet in the VRE. Thank you!
