

D4Science Infrastructure - Task #9341

Remove couchbase library from enabling services

Jul 21, 2017 11:06 AM - Roberto Cirillo

Status:	Closed	Start date:	Jul 21, 2017
Priority:	Normal	Due date:	
Assignee:	Luca Frosini	% Done:	100%
Category:	Application	Estimated time:	0.00 hour
Target version:	Remove accounting from enabling services		
Infrastructure:	Development		
Description			
In order to remove the accounting load from enabling services in production environment, it's needed to test the accounting "empty" library in development environment. I've just replaced the following lib:			
<pre>document-store-lib-couchbase</pre>			
with the following one			
<pre>document-store-lib-no-insert 1.0.0</pre>			
on the following hosts:			
<pre>node8-d-d4s collector (/gcube) node9-d-d4s registry (/gcube) node6-d-d4s resourceManager (/gcube) dlib01 collector (devsec) node3.d.d4science registry (devsec)</pre>			
in about one hour I'm going to recheck the hosts above with the aid of @luca.frosini@isti.cnr.it

As suggested by @luca.frosini@isti.cnr.it I've added the following accessPoint to the Accounting service endpoint resource:

```
<AccessPoint>
  <Description>Persistence No Insert</Description>
  <Interface>
    <Endpoint EntryName="PersistenceNoInsert">PersistenceNoInsert</Endpoint>
  </Interface>
  <AccessData>
    <Username />
    <Password>MwDldJhEXBV7c2zXKQQdTQ==</Password>
  </AccessData>
  <Properties>
    <Property>
      <Name>AggregationSchedulerTime</Name>
      <Value encrypted="false">30</Value>
    </Property>
    <Property>
      <Name>BufferRecordNumber</Name>
      <Value encrypted="false">1</Value>
    </Property>
    <Property>
      <Name>BufferRecordTime</Name>
      <Value encrypted="false">30</Value>
    </Property>
  </Properties>
</AccessPoint>
```

After the update of the ServiceEndpoint resource, it's needed to restart the VMs above in order to discover the new settings.
I'm going to restart all the VMs.

#4 - Jul 21, 2017 03:14 PM - Roberto Cirillo

- *Status changed from In Progress to Feedback*
- *Assignee changed from Roberto Cirillo to Luca Frosini*
- *% Done changed from 0 to 100*

The VMs have been restarted. I've checked the logs and now I don't see any exception.
Please @luca.frosini@isti.cnr.it could you give me a feedback before to start the upgrade in production environment?

#5 - Jul 21, 2017 05:49 PM - Luca Frosini

- *Status changed from Feedback to Closed*

It seems working.
