Category:	Application	**Estimated time:**	0.00 hour
Target version:	UnSprintable		
Infrastructure:	Development, Pre-Production, Production		

Description

We have a playbook partially configured to deploy the data-transfer application on a smartgears node but some configurations are still manual.
We need to complete all the configurations by ansible.

History

#1 - Sep 27, 2017 01:30 PM - Andrea Dell'Amico

- Status changed from New to Closed

- % Done changed from 0 to 100

The smartgears playbook has been modified to setup the data trasfer persistence location when requested.

The needed variables have been added to the data access playbooks.
