Infrastructure:	Production		
Description			
I'm trying to test the TwitterMonitor application. In the infrastructure monitor, under the scope gCubeApps/SoBigData.it I can see the node twittermon1.d4science.org but in its description I don't see any SmartExecutor plugins.

History

#1 - Sep 20, 2017 05:05 PM - Andrea Dell'Amico

- Assignee changed from \_InfraScience Systems Engineer to Luca Frosini

#2 - Sep 21, 2017 02:41 PM - Luca Frosini

- Status changed from New to In Progress

I'm going to investigate it

#3 - Sep 21, 2017 03:25 PM - Luca Frosini

- Assignee changed from Luca Frosini to \_InfraScience Systems Engineer

The smart-executor is installed but I don't find the plugin. See [#8911](#)

#4 - Sep 21, 2017 03:26 PM - Luca Frosini

Monitoring shows twittermon1-p-d4s.d4science.org:80 not twittermon1.d4science.org as indicated in [#8911](#)

#5 - Sep 21, 2017 03:27 PM - Luca Frosini

- Related to Task #8911: Deploy SmartExecutor plugins for TwitterMonitor added

#6 - Sep 21, 2017 03:42 PM - Andrea Dell'Amico

The correct VM is twittermon1.d4science.org, and the plugins are there:

```
ls -la /home/gcube/tomcat/webapps/smart-executor/WEB-INF/lib/ | grep TwMon
-rw-r--r-- 1 gcube gcube 30912246 Jun 28 18:01 TwMonCrawlerPlugin-0.0.1-SNAPSHOT-jar-with-dependencies.jar
-rw-r--r-- 1 gcube gcube 22125615 Jun 28 18:01 TwMonCronPlugin-0.0.1-SNAPSHOT-jar-with-dependencies.jar
```

I see that two different tickets were opened, apparently to cover the same activity: #7181 and [#7466](#). The VM twittermon1-p-d4s.d4science.org was created to satisfy the first request. I guess it can be destroyed. The provisioned VM is twittermon1.d4science.org

#7 - Sep 21, 2017 03:47 PM - Luca Frosini

Does the twittermon1.d4science.org VM is installed with smart-executor and the requested plugin as indicate in [#8911](#)  
I cannot see it from monitor nor I have ssh access.

```

Sorry I didn't read this part.  
Can you please try to restart it?

Yes the twittermon1-p-d4s.d4science.org can be destroyed

Done. You also have ssh access now.

Yes the twittermon1-p-d4s.d4science.org can be destroyed

I shut it down.
