Infrastructure:	Production		
Description I would like to create a module in my future VRE StatnMap that relies on my newly created R package available on github. This package requires following libraries that are not installed directly along mine: install.packages(c("dismo", "rasterVis")) The development version of corrplot is required (≥ 0.82) devtools::install_github("taiyun/corrplot") and then my package: devtools::install_github("statnmap/SDMSelect") Thanks.			

History

#1 - Sep 26, 2017 09:48 AM - Pasquale Pagano

- Category set to Application
- Assignee set to _InfraScience Systems Engineer

#2 - Sep 26, 2017 12:53 PM - Andrea Dell'Amico

- Status changed from New to Feedback
- % Done changed from 0 to 100

The packages list has been added to the provisioning, they will be available everywhere in some minutes.

#3 - Sep 27, 2017 01:25 PM - Andrea Dell'Amico

- Status changed from Feedback to Closed
