

D4Science Infrastructure - VM Creation #9873

Smart Gear VM on developent infrastructure for testing new SDMX data source

Oct 02, 2017 04:13 PM - Ciro Formisano

Status:	Closed	Start date:	Oct 02, 2017
Priority:	Normal	Due date:	
Assignee:	_InfraScience Systems Engineer	% Done:	100%
Target version:	SDMX-Data Export	Applications list and version:	
Infrastructure:	Development	Applications context path:	sdmxdatasource
RAM:	3	External storage data disk:	
CPU:	2	Smartgears auth connector:	
DiskSpace:	10	data transfer enabled:	No
Smartgears:	Yes	PostgreSQL database:	No
Smartgears Version:		Number of VMs:	1
Application Instructions:			
Smartgears scopes:	/gcube/devNext /gcube/devNext/NextNext		
Description I need a SmartGear instance in dev environment to deploy an SDMX datasorce. Eventually the new service will be deployed on the same instance hosting TabMan, but for the first test I would prefer a dedicated one, even if it will be available only for a limited amount of time (one month /one month and half should be enough). I don't have any specific request for the features, so I will leave the default settings for the request.

History

#1 - Oct 04, 2017 02:22 PM - Andrea Dell'Amico

- Status changed from New to In Progress
- RAM changed from 2 to 3

hostname and IP address are going to be: sdmx-datasource-d.dev.d4science.org 146.48.123.52

#2 - Oct 04, 2017 02:48 PM - Andrea Dell'Amico

The scopes are missing and the application context path too. I need them to correctly provision smartgears and the reverse proxy. Then you'll be able to install your application.

#3 - Oct 04, 2017 03:06 PM - Ciro Formisano

- Smartgears scopes updated
- Applications context path updated

#4 - Oct 04, 2017 03:52 PM - Andrea Dell'Amico

- Status changed from In Progress to Feedback

The VM is ready. You have ssh access, your application will be available as [http\(s\)://sdmx-datasource-d.dev.d4science.org/sdmxdatasource](http(s)://sdmx-datasource-d.dev.d4science.org/sdmxdatasource)

A valid ssl certificate will be emitted in the next days.

#5 - Oct 04, 2017 05:20 PM - Ciro Formisano

- *Status changed from Feedback to Closed*

I can access the VM, thanks

#6 - Jan 22, 2018 03:37 PM - Roberto Cirillo

- *Copied to VM Creation #11001: Provide new VM for hosting the sdmx-datasource service added*
