In addition to the basic facilities @paolo.manghi@isti.cnr.it requested me to add "analytics" facilities, namely DataMiner (with GateCloud methods) and TagMe for the time being.

@roberto.cirillo@isti.cnr.it / @massimiliano.assante@isti.cnr.it could you please cater for this, i.e. add a DataMiner instance to this VRE. The portlet is already there.
