<b>Description</b> <p>While discussing with @paolo.manghi@isti.cnr.it a possible usability issue was raised Re the use of a drop down menu to select among the options:</p> <ul style="list-style-type: none"><li>• Share with + Notification</li><li>• Share with</li></ul> <p>The suggestion is to go for a simple "radio button" enabling to select whether to "Notify by email" or not.</p> <p>If I remember correctly, the drop-down menu was a legacy of a scenario where it was possible to post in multiple contexts.</p>
